

Leonardo Matone

Software Developer in AI/ML

 V993

 Leonardo-Matone

 LeonMatone@gmail.com

Technical Skills:

Coding Languages: *Python, C++, Bash, R, JavaScript, HTML, CSS, SQL*

Frameworks: *PyTorch, NumPy, Pandas, Matplotlib, Scikit-Learn, TensorFlow, AWS Toolkit, Slurm*

Experience:

Tulane University New Orleans, LA

Jan 2024 – Present

Research Assistant (Python, PyTorch, Pandas, NumPy, Matplotlib)

- Designs/implements custom models/modules for specific tasks using *PyTorch*
- Utilizes *Slurm* to manage and optimize neural network training on LSU's HPC clusters
- Contributes to data science research on voting rules

Healthfirst New York, NY

Sep 2022 – Present

Backend Developer (Python, AWS Toolkit)

- Enables ~30k users to earn rewards for preventative care by building backend from scratch
- Develops scalable and robust APIs to serve internal and user-facing applications
- Integrates non-standardized and inconsistent data sources for accurate health tracking

Intern (Kotlin, JavaScript, AWS Toolkit)

Jun 2022 – Sep 2022

- Collaborated with a team of 6 to design solutions to user-facing issues in mobile and web frameworks
- Created an NLP call center dashboard for Healthfirst representatives using *AWS Comprehend*
- Developed a prospective member experience in the Healthfirst app using the *Android SDK*

Personal Projects:

[Refining Model Learning Using ChatGPT Annotations](#) 

May 2024

- Fine-tuned a hybrid DistilBERT model from HuggingFace on human and LLM labeled data
- Managed and resolved inconsistencies in a sparsely distributed categorization dataset with a LLM
- Demonstrated deviation from inconsistent ground truth, theoretically increasing generalization

[Predicting Ideological Scores in Congress](#) 

Dec 2023

- Used *sklearn* to predict ideology scores for politicians with 90% accuracy
- Curated a dataset from public databases, performing entity resolution on representatives using *pandas*
- Illustrated the key population/representative data which correlate with ideological scores

[Legislative Awareness and Data Analytics](#) 

Dec 2021

- Developed an interactive web application using *React.js*, *node.js*, *Express.js*, and *PostgreSQL*
- Integrated multiple government APIs into one framework to increase accessibility
- Designed a web interface to allow users to access, arrange, and better understand legislative data

Education:

Tulane University, New Orleans

Aug 2023 – Present

Master of Computer Science, GPA: 4.0 / 4.0

- **Relevant Coursework:** Data Science, NLP, Statistics, Machine Learning
- **Research Interests:** NLP, text annotation, political analytics, big data analytics

Hunter College, City University of New York

Aug 2018 – May 2022

Bachelor of Arts, Computer Science and Political Science, GPA: 3.792 / 4.0

- **Relevant Coursework:** Data Structures and Algorithms, Machine Learning, Databases, Statistics
- **Honors:** Thomas Hunter Scholar, Roosevelt Scholar, Women's Public Service Fellow, Dean's List
